

Company Fact Sheet

Headquarters:

Biodesix Inc.
2970 Wilderness Avenue, Suite 100
Boulder, CO 80301
USA

Other Locations:

Biodesix Artificial Intelligence Research
919 Oak Street, PO Box 774872
Steamboat Springs, CO 80487

Biodesix Laboratory
219 Terry Avenue N, Suite 100
Seattle, WA 98109

Number of Employees:

140+

Biodesix:

A privately-held lung cancer diagnostic company founded in 2006 addressing the continuum of patient care from early diagnosis of lung nodules through late stage cancer.

Biodesix Technology:

The company develops diagnostic tests addressing important clinical questions by combining simple blood draws and multi-omics with the power of artificial intelligence. Biodesix is the first company to offer three best-in class tests for patients with non-small cell lung cancer, and multiple pipeline tests including one with the potential to identify patients who may benefit from immunotherapies. Biodesix also partners with the world's leading biotechnology and pharmaceutical companies to develop companion diagnostics.

Biodesix Products:

The **Biodesix Lung Reflex** strategy integrates the **GeneStrat**[®] and **VeriStrat**[®] tests to support non-small cell lung cancer decisions with results in 72 hours. GeneStrat is a genomic test and VeriStrat is a proteomic test. Together they reveal both sides of cancer to provide the most information available to fight lung cancer quickly and accurately.

The **BDX-XL2** nodule test* evaluates the risk of malignancy, enabling physicians to triage patients to the most appropriate course of action.

Lab Certifications:

CAP, CMS CLIA, ISO 13485, NYS CLEP as well as complying with all applicable regulatory and state agency requirements holding state permits and licenses in California, Florida, Maryland, New York, Pennsylvania, and Rhode Island.

Patents:	65+
Partnerships:	40+ companies including biopharma industry leaders
Charitable Contributions:	Actively involved with 25+ organizations
Media Resources:	David Brunel, CEO Scott Hutton, COO Robin Cowie, CFO Bobbi Coffin, CMO
